

Pumps

Reverso supplies low-output, high-quality gear pumps, vane pumps and impeller pumps to the industrial, aviation, marine, energy and automotive markets. Specialty systems include variable speed pumps, transfer pumps, priming pumps and many others for customers with general pump applications.

Pump	Fluids	Specifications	
Gear Pump 211	<ul style="list-style-type: none"> » Diesel » Oil » Water 	1.5 GPM (5.7 LPM) 12V or 24V DC Reversible flow Add optional bypass, on/off switch, or reversing switch	
Gear Pump 212	<ul style="list-style-type: none"> » Diesel » Oil » Water 	1.5 GPM (5.7 LPM) 12V or 24V DC Reversible flow Add optional bypass, on/off switch, or reversing switch	
Gear Pump 311	<ul style="list-style-type: none"> » Diesel » Oil » Water 	3 GPM (11.4 LPM) 12V or 24V DC Reversible flow Add optional bypass, on/off switch, or reversing switch	
Gear Pump 312	<ul style="list-style-type: none"> » Diesel » Oil » Water 	3 GPM (11.4 LPM) 12V or 24V DC Reversible flow Add optional bypass, on/off switch, or reversing switch	
Impeller Pump OP-7	<ul style="list-style-type: none"> » Diesel » Oil » Water 	7.4 GPM (28 LPM) 12V or 24V DC Equipped with reversing switch <i>Version OP-6FV for diesel fuel</i>	
Gear Pump 800	<ul style="list-style-type: none"> » Oil 	3 GPM (11.4 LPM) 12V or 24V DC Reversible flow Includes reversing switch	
Gear Pump 900	<ul style="list-style-type: none"> » Oil 	5.6 GPM (21.1 LPM) 24V DC Reversible flow Add optional reversing switch	
Gear Pump 311 AC	<ul style="list-style-type: none"> » Diesel » Oil » Water 	3 GPM (12 LPM) 120V AC Reversible flow Equipped with on/off or reversing switch	
Vane Pump 620	<ul style="list-style-type: none"> » Diesel 	10 GPM (37.8 LPM), 120V or 220V AC 15 GPM (56.8 LPM), 400V Add optional on/off switch Built-in 100 micron filter	
Vane Pump 620 with Speed Control	<ul style="list-style-type: none"> » Diesel 	15 GPM (56.8 LPM) 120V or 220V AC Add optional on/off switch Built-in 100 micron filter
