

Warranty Policy

Reverso Pumps warrants the product will be free of defects in material and workmanship, under normal use and service, for one year from date of purchase. If product is determined to be repairable and is within the limited warranty, Reverso Pumps will repair or replace parts with new and/or serviceable used parts.

A product must be returned to Reverso Pumps with prior request for a Return Material Authorization (RMA) number and marked clearly on the return packaging. An unauthorized return, i.e. one for which an RMA number has not been issued, will be returned to you at your expense.

Warranty does not apply to any part of the product if it has been altered, neglected, improperly installed, or misused in a way that affects the reliability, as determined by Reverso Pumps. For example, Reverso Pumps will not cover with warranty if product has been submerged under water.

Certain parts are excluded which are subject to normal wear and tear, e.g. fuses, filter element, o-rings, gaskets, switches, impellers, etc. An impeller is installed in the impeller pumps OP-4, OP-6, and the oil change system OP-700 Series.

Entire financial liability of Reverso Pumps in no event shall exceed the purchase price for the product.

Reverso Pumps reserves the right to modify its warranty policy at any time, at its sole discretion.

Reverso Pumps offers an extended warranty plan. Please contact a sales representative for details.
