

Diesel Tech Polisher

Water In Your Diesel Fuel?

Water in diesel fuel can lead to poor performance, clogged filters, damaged injectors, and engine shutdown.

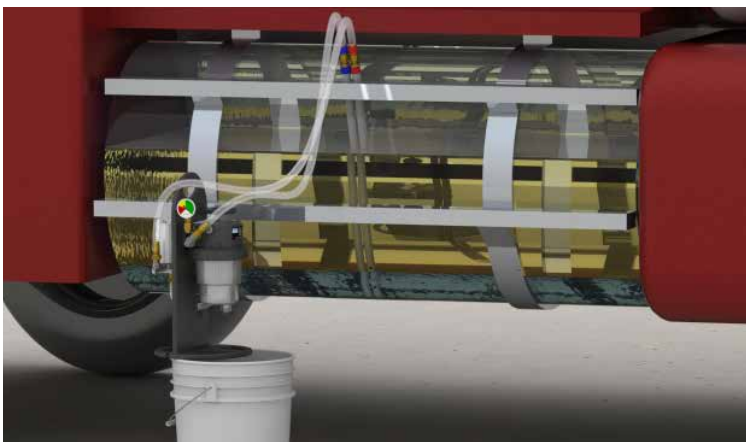

Reverso Diesel Tech Polisher eliminates free water in minutes.

The system is designed for use in any diesel fuel tank.

- ▶ **Quickly removes water and particulates that cause engine failure**
- ▶ **Portable, self-contained 12V DC-powered system**
- ▶ **Cleans and transfers fuel**

Ideal for:

- Fuel Storage Tanks
- Rental Equipment Fleets
- Trucks
- Construction Equipment
- Standby Generators
- Agricultural Equipment
- Diesel-Powered Boats
- RVs and more

Ensures reliability of diesel equipment by removing water and particulates from fuel tanks.

Unique Separ filter collects water and large particulates “in the bowl” for maximum efficiency, prolonged element life, and easy draining.

Compact system requires minimal storage space and can be used in the shop or in the field.

Professional-grade pump and components ensure many years of reliable service.

Suction & Return Hoses

Heavy-duty “wands” pull fuel from the bottom of the tank and return it after water has been removed. Clear 1/2” (I.D.) hoses are flexible for easy use and storage.

12V Power Sources

DC pump can be powered by any 12V battery. Max. run time 2 hours; allow to cool between use.

Clean Fuel While You Transfer or Return To The Same Tank

No-Mess Bucket

Allows system to be used in the shop or in the field. System can be used in or out of bucket. Bucket allows easy transport and storage with no drips or mess.

Fuel Out

Fuel In

Diesel Fuel Filter

High-efficiency filtration system removes water & particulates from fuel; water is collected in clear bowl for draining.

Part #	Model	Voltage	Flow Rate	Replacement Element	
83-1000-01	DTP-50	12V	50 GPH	87-1961	10 micron*
				87-1962	6 micron
				87-1963	3 micron
83-1001-01	DTP-90	12V	90 GPH	87-1960	10 micron*
				87-1964	6 micron
				87-1965	3 micron
83-1002-01	DTP-125	12V	125 GPH	58-01010	10 micron
				58-01030	30 micron*
				58-01060	60 micron stainless

*Standard element installed in the system. Other micron ratings available as replacements.
